

FEDERICO SCABBIA

Padua 22-06-1997

Education

Sep 2023 – present	Universitat Pompeu Fabra, Barcelona <i>Master of research, PhD Track</i> Main courses: Data Science, Behavioral, Political Economy
Sep 2022 – Jul 2023	Barcelona School of Economics, Barcelona <i>Master of sciences, PhD Track</i> Main courses: Econometrics, Microeconomics, Macroeconomics
Sep 2019 – Oct 2021	Bocconi University, Milan <i>Master of sciences, Economic and Social sciences – Final grade: 110/110 cum laude</i> Main courses: Econometrics, Microeconomics, Behavioral economics, Macroeconomics, Machine Learning Member of Bocconi students for Data Science (Sep 2020 - Jul 2022) Attended additional PhD course " <i>Topics in statistical and machine learning</i> " by D. Durante (grade A) Thesis: What Makes the Front Page? Theoretical and Empirical Analysis of News Selection Thesis supervisor: Professor Nicola Gennaioli
Sep 2018 – Dec 2018	University of The West of Scotland, Glasgow <i>Erasmus exchange – Gpa: 30.33/30</i> Main courses: marketing communications, strategic management, business in action
Sep 2016 – Jul 2019	University of Trento, Trento <i>Bachelor's degree, Economic sciences – Final grade: 110/110 cum laude</i> Main courses: Econometrics, Microeconomics, statistics Thesis: Firms, social (ir)responsibility and boycotts: an economic analysis Thesis supervisor: Professor Marco Faillo
Sep 2011 – Jul 2016	Liceo classico Concetto Marchesi, Padua <i>Highschool, classical studies – Final grade: 100/100</i>

Professional experience

Sep 2022 – Present	Universitat Pompeu Fabra, Barcelona <i>Research assistant</i> Research assistant for Professors Marta Reynal Querol and Luigi Pascali. Scraped data and provided big data management using Python.
Aug – Nov 2023	Bank of Italy, Roma <i>Trainee</i> Co-author in working project " <i>Cyber attacks effect on Macroeconomic variables</i> ". Scraped data from FATTIVA and analyzed it using different macro-econometrics approaches.
Sep 2021 – Jul 2022	Bocconi University, Milan <i>Research assistant</i> Research assistant for Professor Guido Tabellini. Solved dynamic model on MATLAB and converted video content to text using neural networks to perform text analysis. Used BERT algorithm to categorize Reddit comments for the project "Online Political Debates"
Jul – Sep 2021	University of Oxford, Oxford <i>Research assistant</i> Research assistant for Professor Pedro Bordo. Scraped data from Vanderbilt database and provided text analysis using machine learning techniques.
Feb 2021 – Jul 2022	Harvard Business School, Boston <i>Research assistant</i> Research assistant for Professor Marco Tabellini. Developed econometric analysis and scraped data using STATA and Python.
Feb – May 2021	Bocconi University, Milan <i>Research assistant</i> Research assistant for Professor Mara Squicciarini. Developed supervised machine learning algorithm to identify discriminatory tweets against members of the Chinese community during the early stages of Covid outbreak.

Feb 2020 – May 2021

Innocenzo Gasparini Institute of Economic Research, Milan

Visiting student

Research assistant for Professors Paola Cillo and Mara Squicciarini. Intensive use of R and Python for machine learning and data cleaning.

Organized seminars for IGIER fellows, presented academic articles and discussed their validity

Authored articles on *Bocconi Knowledge* about IGIER seminars:

[Research and Policy to Tackle climate change](#), November 17 2020

[Education and innovation: a glimpse of hope for Africa](#), March 1 2021

Feb – Sep 2019

Junior Enterprise Trento, Trento

Coordinator, Business Area

Coordinated and managed 11 associates and presented the association products to potential clients

Awards and scholarships

Google Cloud Research Grant (2023-2025): \$2000 computing credits granted by Google for the project “*The new Scramble for Africa: the case of Illeal Fishing*”

Bonaldo Stringher scholarship (2022-2024): 2-year Bank of Italy scholarship for promising graduates in Political Economy (€27 000 yearly income and tuition fees granted)

Collegio Bernardo Clesio (2016-2019): Placed second on 141 participants and selected to win a merit-based scholarship (free accommodation and other benefits granted).

Mentors4U (2018-present): Selected (top 25%) to participate to Mentors4u, a merit-based undergraduate mentoring program.

Languages

Italian: native speaker

English: fluent (IELTS certificate, 8.5 (Nov 2021))

Spanish: fluent (C1)

Technical skills

Excel, Word, PowerPoint: Advanced Level (ECDL certificate)

R, Python: Advanced level

STATA: Advanced level

LaTeX: Advanced level

MATLAB: Advanced level

SQL (Google BigQuery): Intermediate level
